

**SAVING ONE
DOG WILL NOT
CHANGE THE
WORLD
BUT SURELY
FOR THAT ONE
DOG,
THE WORLD
WILL CHANGE
FOREVER.**

ABOUT Us

Care for Dogs Romania Association was founded in 2016 by Delia Botea, a young graduate of the Faculty of Electrical Engineering and Computer Science in Brasov. Since she undertook the mission of rescuing homeless animals, she helped more than 350 dogs and 40 cats out of which more than 150 found their forever homes.

Care For Dogs Romania has a solid team of volunteers who are constantly offering foster services and engage in dog socialization activities thus giving the dogs the best start for their future lives as indoor pets.

At the moment, the association takes care of approximately 200 dogs and 8 cats. Given the lack of proper stray animal management among the local authorities, the rampant cruelty toward animals and the increased abandonment rate, this number changes almost daily.

“ We are an organization from Brasov, Romania, who wants to protect and save dogs in need of help (strays and dogs from public shelters). We strive to make their lives better, protect them, and educate people about responsible pet ownership. We want to change the world with every dog we save. ”

Delia Botea, founder

OUR MISSION

Care For Dogs Romania's mission is rescuing and helping homeless animals in Romania by offering veterinary care such as life saving treatment, spaying and neutering, deworming, etc as well as finding responsible and loving families for them. Additionally Care For Dogs Romania strives to change the local mentality regarding responsible pet ownership and the civic spirit regarding stray animals in the community. Educational work is paramount to changing the precarious situation of Romanian homeless animals.

OUR OBJECTIVES

1

BUILD AN ON-SITE CLINIC WHERE WE CAN TREAT AND QUARANTINE SICK DOGS AND CATS.

2

Encourage compassionate mentality by creating an attractive space where local volunteers can perform various activities alongside our rescues (obedience training, agility training, play, walking).

3

Create partnerships between Care for Dogs Romania, public authorities and businesses with the ultimate goal of improving the lives of homeless animals.

4

Organize educative projects and actions on animal welfare in schools to promote children and youngsters responsibility regarding stray animals and pets.

5

Fight and prevent animal cruelty through public awareness campaigns and education.

VOLUNTEERS NEEDED

The only way we can cope with the huge workload required to care for the dogs in our care is to rely on volunteers. Volunteering offers multiple benefits for for dogs as well as for the people engaging in volunteer work.

OPPORTUNITIES

DOG SOCIALIZATION

Come to our shelter for a few hours and play with our puppies and adult dogs. This helps them get used to interacting with people in a way that makes them ready to become indoor pets. Walk them and teach them commands such as sit, stay, heel, down, etc.

SHELTER REPAIRS AND CLEANING

We constantly need help with dog pen repairs, yard cleaning, dog food preparation and serving, etc. The needs are endless.

TRANSPORTION

We need drivers who who are willing to transport sick animals to the vet in their personal vehicles. We also need volunteers to help us catch abandoned animals and transport them to our shelter.

HOMECHECKS

We need volunteers willing to do homechecks with prospective adopters. We will provide training and will tell you what questions to ask and what to look for. Proper homechecking is extremely important in reducing the number of failed adoptions.

PHOTOGRAPHY

A great picture that highlights a pet's personality will increase the adoption chances for a dog.

DONATIONS NEEDED

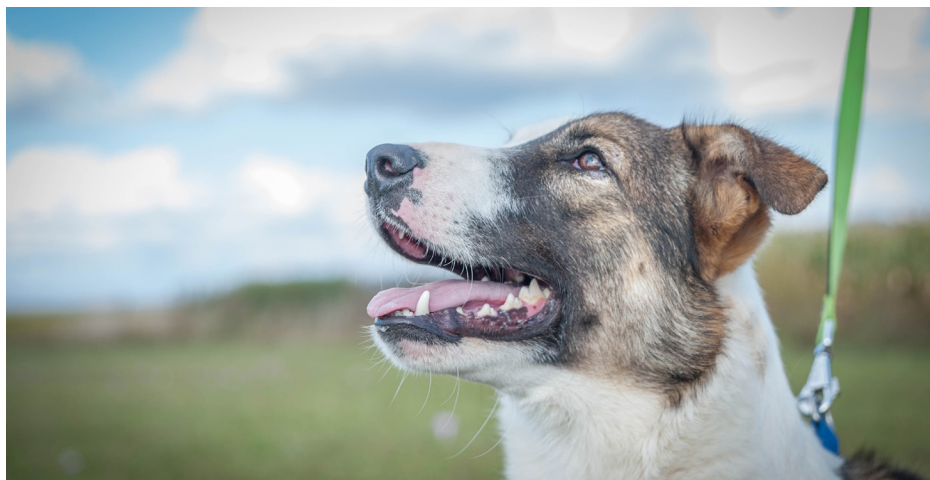

Your financial support is vital. The expenses incurred in our rescue activity far exceed the amount of donations received, therefore it is important to give. Monthly donations help us estimate the number of cats and dogs we can help realistically. If you live and work in Romania and pay taxes to ANAF, there are two more ways in which you can help and make a huge difference.

2%

Redirect 2% of your income tax to Care For Dogs Romania. Follow steps outlined on our website at carefordogsromania.org/2-percent

Companies paying taxes in Romania can redirect up to 20% of their taxes but no more than 3 thousandth of the total fiscal value of the company. Follow steps outlined on our website at carefordogsromania.org/20-sponsorship
